

Report Name: CHA COVID Tracking Tool
Source: California Hospital Association
Requirement: [Per AFL 20-31.2, data submission required by noon daily](#)
Original Publication Date: 4/18/2020
Updated: 4/27/2020, 5/28/2020, 6/17/2020, 7/22/2020, 7/28/2020, 8/5/2020, 8/13/2020, 10/19/2020, 11/02/2020, 12/17/2020, 1/8/2021, 1/20/2021 & 1/29/2021, 03/24/2021, 05/27/2021
Additional Instructions: [California Hospital COVID-19 Reporting Guidance](#)

Basic Information

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Hospital Name	Text	The name of the hospital.	Rare. Update requests should be directed to covidtracker@calhospital.org
System Name	Text	The name of the health system the hospital is a member of (if applicable).	Rare. Update requests should be directed to covidtracker@calhospital.org
Address	Text	The street address of the hospital.	Never
City	Text	The city where the hospital is located.	Never
Zip	Numeric	The ZIP code where the hospital is located.	Never
County	Text	The County where the hospital is located.	Never

Capacity and Utilization

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
COVID Confirmed Patients	Numeric	The number of observation patients and inpatients in the hospital who have laboratory confirmed COVID-19. Once a patient has laboratory confirmed COVID-19, the patient should be included in this field until discharge.	Never. This is a calculated field.
COVID Confirmed Patients Adult	Numeric	The number of observation patients and inpatients in adult beds in the hospital who have laboratory confirmed COVID-19. Once a patient has laboratory confirmed COVID-19, the patient should be included in this field until discharge.	Daily
COVID Confirmed Patients Pediatric	Numeric	The number of observation patients and inpatients in pediatric beds (including NICU) in the hospital who have laboratory confirmed COVID-19. Once a patient has laboratory confirmed COVID-19, the patient should be included in this field until discharge.	Daily

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
COVID Suspected Patients	Numeric	<p>The number of observation patients and inpatients who are currently under investigation or suspected to have COVID-19. Suspected is defined as a person who is being managed as though he/she has COVID-19 because of signs and symptoms suggestive of COVID-19 as described by CDC's guidance but does not have a laboratory positive COVID-19 test result.</p> <p>This may include patients who have not been tested or those with pending test results. The count may also include patients with negative test results but who continue to show signs/symptoms suggestive of COVID-19. This should exclude patients for whom the test was sent only as part of routine screening (e.g., for patients being admitted for other diagnoses, prior to diagnostic procedures, or prior to surgery).</p>	Never. This is a calculated field.
COVID Suspected Patients Adult	Numeric	<p>The number of observation patients and inpatients in adult beds who are currently under investigation or suspected to have COVID-19. Suspected is defined as a person who is being managed as though he/she has COVID-19 because of signs and symptoms suggestive of COVID-19 as described by CDC's guidance but does not have a laboratory positive COVID-19 test result.</p> <p>This may include patients who have not been tested or those with pending test results. The count may also include patients with negative test results but who continue to show signs/symptoms suggestive of COVID-19. This should exclude patients for whom the test was sent only as part of routine screening (e.g., for patients being admitted for other diagnoses, prior to diagnostic procedures, or prior to surgery).</p>	Daily

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
COVID Suspected Patients Pediatric	Numeric	<p>The number of observation patients and inpatients in pediatric beds including NICU who are currently under investigation or suspected to have COVID-19. Suspected is defined as a person who is being managed as though he/she has COVID-19 because of signs and symptoms suggestive of COVID-19 as described by CDC's guidance but does not have a laboratory positive COVID-19 test result.</p> <p>This may include patients who have not been tested or those with pending test results. The count may also include patients with negative test results but who continue to show signs/symptoms suggestive of COVID-19. This should exclude patients for whom the test was sent only as part of routine screening (e.g., for patients being admitted for other diagnoses, prior to diagnostic procedures, or prior to surgery).</p>	Daily
Hospital Onset Patients	Numeric	Total current inpatients (patients anywhere in the hospital with an inpatient order) who had an onset of suspected or confirmed COVID-19 fourteen or more days after admission for a condition other than COVID-19. Once hospital onset COVID-19 patients are no longer symptomatic and cleared from contact precautions, they no longer should be counted in this field, however they should continue to be counted in the "COVID Confirmed Patients" field until discharge.	Never. This is a calculated field.
Hospital Onset Patients Adult	Numeric	Total current adult inpatients anywhere in the hospital with an inpatient order with onset of suspected or confirmed COVID-19 fourteen or more days after admission for a condition other than COVID-19. Once hospital onset COVID-19 patients are no longer symptomatic and cleared from contact precautions, they should be excluded from this field, however they should continue to be counted in the "COVID Confirmed Patients" field until discharge	Daily
Hospital Onset Patients Pediatric	Numeric	Total current pediatric inpatients anywhere in the hospital with an inpatient order with onset of suspected or confirmed COVID-19 fourteen or more days after admission for a condition other than COVID-19. Once hospital onset COVID-19 patients are no longer symptomatic and cleared from contact precautions, they should be excluded from this field, however they should continue to be counted in the "COVID Confirmed Patients" field until discharge.	Daily

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Available Routine Use Ventilators	Numeric	The number of available routine use ventilators at the hospital except for those used exclusively for NICU patients. This excludes anesthesia machines, portable/transport ventilators, BiPAP machines and ventilators used exclusively for NICU patients.	Never. This is a calculated field.
Total Routine Use Ventilators in Hospital	Numeric	The total number of working routine use ventilators physically in the facility including both those that are currently in use and those that are currently available. This excludes anesthesia machines, portable/transport ventilators, BiPAP machines and ventilators used exclusively for NICU patients.	Daily
Routine Use Ventilators In Use Any Dx	Numeric	The current number of routine use ventilators being used to care for patients with any diagnosis. This excludes anesthesia machines, portable/transport ventilators, BiPAP machines and ventilators used exclusively for NICU patients.	Daily
Total Ventilators in Hospital	Numeric	The total number of all mechanical ventilators, including adult, pediatric, neonatal ventilators, anesthesia machines and portable/transport ventilators available in the facility. Include BiPAP machines if the hospital uses BiPP to deliver positive pressure ventilation via artificial airways.	Daily
Total Ventilators in Hospital in Use Any Dx	Numeric	The total number of mechanical ventilators in use for patients with any diagnosis at the time the data is collected, including adult, pediatric, neonatal ventilators, anesthesia machines and portable/transport ventilators. Include BiPAP machines if the hospital uses BiPAP to deliver positive pressure ventilation via artificial airways.	Daily
COVID Patients Using Ventilation	Numeric	The current number of suspected or confirmed COVID-19 inpatients using routine use ventilators.	Never. This is a calculated field.
COVID Patients Using Ventilation Adult	Numeric	The current number of suspected or confirmed COVID-19 inpatients in adult beds using routine use ventilators.	Daily
COVID Patients Using Ventilation Pediatric	Numeric	The current number of suspected or confirmed COVID-19 inpatients in pediatric beds using routine use ventilators.	Daily
COVID ED and Overflow Patients Using Ventilation	Numeric	Patients with suspected or confirmed COVID-19 who are currently using ventilators, but not assigned to a hospital bed. These patients may be in the ED or any overflow location awaiting an inpatient bed.	Never. This is a calculated field.

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
COVID ED and Overflow Patients Using Ventilation Adult	Numeric	Patients with laboratory confirmed COVID-19 who are currently using a ventilator but not assigned to an adult hospital bed. These adult patients may be in the ED or any overflow location awaiting an inpatient adult bed.	Daily
COVID ED and Overflow Patients Using Ventilation Pediatric	Numeric	Patients with laboratory confirmed COVID-19 who are currently using a ventilator but not assigned to a pediatric hospital bed. These pediatric patients may be in the ED or any overflow location awaiting an inpatient pediatric bed.	Daily
ICU Confirmed Patients	Numeric	The current number of laboratory confirmed COVID-19 patients occupying ICU beds.	Never. This is a calculated field.
ICU Confirmed Patients Adult	Numeric	The current number of laboratory confirmed COVID-19 patients occupying ICU adult beds.	Daily
ICU Confirmed Patients Pediatric	Numeric	The current number of laboratory confirmed COVID-19 patients occupying ICU pediatric beds, including NICU.	Daily
ICU Suspected Patients	Numeric	The current number of patients under investigation for suspected COVID-19 occupying ICU beds.	Never. This is a calculated field.
ICU Suspected Patients Adult	Numeric	The current number of patients under investigation for suspected COVID-19 occupying ICU adult beds.	Daily
ICU Suspected Patients Pediatrics	Numeric	The current number of patients under investigation for suspected COVID-19 occupying ICU pediatric beds, including NICU.	Daily
ED and Overflow Confirmed Patients	Numeric	Patients with laboratory confirmed COVID-19 who are currently not assigned to a hospital bed. These patients may be in the ED or any overflow location awaiting an inpatient bed.	Never. This is a calculated field.
ED and Overflow Confirmed Patients Adult	Numeric	Patients with laboratory confirmed COVID-19 who are currently not assigned to an adult hospital bed. These patients may be in the ED or any overflow location awaiting an inpatient adult bed.	Daily
ED and Overflow Confirmed Patients Pediatrics	Numeric	Patients with laboratory confirmed COVID-19 who are currently not assigned to a pediatric hospital bed. These patients may be in the ED or any overflow location awaiting an inpatient pediatric bed.	Daily
ED and Overflow Suspected Patients	Numeric	Patients with suspected COVID-19 who are currently not assigned to a hospital bed. These patients may be in the ED or any overflow location awaiting an inpatient bed.	Never. This is a calculated field.

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
ED and Overflow Suspected Patients Adult	Numeric	Patients with suspected COVID-19 who are currently not assigned to an adult hospital bed. These adult patients may be in the ED or any overflow location awaiting an inpatient adult bed.	Daily
ED and Overflow Suspected Patients Pediatric	Numeric	Patients with suspected COVID-19 who are currently not assigned to a pediatric hospital bed. These patients may be in the ED or any overflow location awaiting an inpatient pediatric bed.	Daily
Total Beds Including Surge	Numeric	The total number of beds in the facility. This field will equal "Total Non-Surge Beds" plus "Surge Beds".	Never. This is a calculated field
Total Inpatients Including Surge	Numeric	The total number of inpatients in the facility. This field will equal "Occupied Inpatient Non-Surge Beds" plus "Surge Bed Non-ICU Patients" plus "Surge Bed ICU Patients".	Never. This is a calculated field
Total Non-Surge Beds	Numeric	The total number of all staffed inpatient and outpatient beds in your hospital used for inpatients (includes ICU) and outpatients (includes observation beds). If the bed is not currently staffed or equipped but is usable and has the potential to be staffed and equipped using routine available hospital resources and staffing, it should be counted. This number should exclude surge beds	Never. This is a calculated field.
Total Non-Surge Beds Adult	Numeric	The total number of all staffed adult (as defined by room designation) inpatient (includes ICU) and outpatient (includes observation) beds in your hospital. If the bed is not currently staffed or equipped but is usable and has the potential to be staffed and equipped using routine available hospital resources and staffing, it should be counted. This number should exclude surge beds .	Daily
Total Non-Surge Beds Pediatric	Numeric	The total number of all staffed pediatric (as defined by the room designation) inpatient (includes PICU and NICU) and outpatient (includes observation) beds in your hospital. If the bed is not currently staffed or equipped but is usable and has the potential to be staffed and equipped using routine available hospital resources and staffing, it should be counted. This number should exclude surge beds .	Daily
Occupied Non-Surge Inpatient Beds	Numeric	The number of inpatient beds currently occupied with patients. This number should exclude occupied surge beds .	Never. This is a calculated field.
Occupied Non-Surge Inpatient Beds Adult	Numeric	The number of inpatient adult beds occupied with a patient. This number should exclude occupied surge beds .	Daily

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Occupied Non-Surge Inpatient Beds Pediatric	Numeric	The number of inpatient pediatric beds occupied with a patient. This number should exclude occupied surge beds.	Daily
Total Non-Surge Inpatient Beds	Numeric	The total number of all staffed inpatient beds in your hospital (including all ICU beds). If the bed is not currently staffed or equipped but is usable and has the potential to be staffed and equipped using routine available hospital resources and staffing, it should be counted. This number should also include outpatient beds that are holding inpatients who are boarding, and should exclude surge beds.	Never. This is a calculated field.
Total Non-Surge Inpatient Beds Adult	Numeric	The total number of all staffed inpatient adult beds in your hospital (including all ICU beds). If the bed is not currently staffed or equipped but is usable and has the potential to be staffed and equipped using routine available hospital resources and staffing, it should be counted. This number should also include outpatient beds that are holding inpatients who are boarding, and should exclude surge beds.	Daily
Total Non-Surge Inpatient Beds Pediatric	Numeric	The total number of all staffed inpatient pediatric beds in your hospital (including all ICU beds). If the bed is not currently staffed or equipped but is usable and has the potential to be staffed and equipped using routine available hospital resources and staffing, it should be counted. This number should also include outpatient beds that are holding inpatients who are boarding, and should exclude surge beds.	Daily
Surge Beds	Numeric	The number of additional inpatient beds that the hospital could add if all available space were used for patient care, a process allowed under the terms of the temporary Department of Public Health waiver. This number should include any and all beds in spaces not routinely used for patient care (e.g., gift shop, outdoor tents, hallways, etc.). If the bed is not currently staffed and equipped but is usable and has the potential to be staffed and equipped under the hospital's established surge plan, it should be counted.	Daily

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
ICU Surge Beds	Numeric	The current number of additional physical, staffed adult ICU beds that the hospital has added or could add if all ICU appropriate and available space were used for patient care (occupied and unoccupied), a process allowed under the terms of the temporary Department of Public Health waiver. This number should include any and all ICU beds in spaces not routinely used for ICU level care but that have the capacity to accommodate standard ICU equipment and functions (e.g. PACU, operating rooms, telemetry units, step-down units, placing additional ICU beds in one ICU room, etc.). If the bed is not currently in use but can be readily staffed and equipped for ICU level care under the hospital's established surge plan, it should be counted.	Daily
Surge Bed Non-ICU Patients	Numeric	The number of patients occupying non-ICU surge beds at the hospital.	Daily
Surge Bed ICU Patients	Numeric	The number of patients occupying ICU surge beds at the hospital.	Daily
Surge Bed Occupancy Rate	Numeric	The percent of available surge beds that are in use.	Never. This is a calculated field.
ICU Non-Surge Occupied Beds	Numeric	The current number of patients occupying staffed inpatient ICU beds, excluding surge beds	Never. This is a calculated field.
ICU Non-Surge Occupied Beds Adult	Numeric	The current number of adult ICU beds occupied by a patient, excluding surge beds.	Daily
ICU Non-Surge Occupied Beds PICU	Numeric	The current number of pediatric ICU beds occupied by a patient, excluding surge beds and NICU.	Daily
ICU Non-Surge Occupied Beds NICU	Numeric	The current number of neonatal ICU beds occupied by a patient, excluding surge beds.	Daily
ICU Non-Surge Total Beds	Numeric	The current number of physical, staffed intensive care beds in the facility. If the intensive care bed is not currently staffed and equipped but is usable and has the potential to be staffed and equipped using routine available hospital resources and staffing, it should be counted. The same would apply to a blocked intensive care bed. If the intensive care bed is currently blocked, but is a usable bed, it should be counted. This number should exclude surge beds.	Never. This is a calculated field.

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
ICU Non-Surge Total Beds Adult	Numeric	The current number of physical, staffed adult intensive care beds in the facility. If the intensive care bed is not currently staffed and equipped but is usable and has the potential to be staffed and equipped using routine available hospital resources and staffing it should be counted. The same would apply to a blocked intensive care bed. If the intensive care bed is currently blocked, but is a usable bed, it should be counted. This number should exclude surge beds .	Daily
ICU Non-Surge Total Beds PICU	Numeric	The current number of physical, staffed inpatient pediatric intensive care beds in the facility. If the intensive care bed is not currently staffed and equipped but is usable and has the potential to be staffed and equipped using routine available hospital resources and staffing, using available hospital resources and staffing, it should be counted. The same would apply to a blocked intensive care bed. If the intensive care bed is currently blocked, but is a usable bed, it should be counted. This number should exclude surge beds and NICU .	Daily
ICU Non-Surge Total Beds NICU	Numeric	The current number of physical, staffed inpatient neonatal intensive care beds in the facility. If the intensive care bed is not currently staffed and equipped but is usable and has the potential to be staffed and equipped using routine available hospital resources and staffing, using available hospital resources and staffing, it should be counted. The same would apply to a blocked intensive care bed. If the intensive care bed is currently blocked, but is a usable bed, it should be counted. This number should exclude surge beds .	Daily
Previous Day's Conversions to COVID Confirmed	Numeric	The number of total patients in the facility (irrespective of when they were admitted) whose status changed to COVID-19 confirmed positive on the previous calendar day. This will include any individual who, on the previous day, had laboratory results return to confirm a COVID-19 diagnosis where previously their diagnosis was unconfirmed.	Daily
Admits In Previous Day Confirmed	Numeric	The total number of patients who were admitted to an inpatient bed on the previous calendar day (12am - 11:59pm) and who had confirmed COVID-19 at the time of admission.	Never. This is a calculated field.

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Adult Admits In Previous Day Confirmed	Numeric	The total number of patients who were admitted to an inpatient bed on the previous calendar day (12am - 11:59pm) and who had confirmed COVID-19 at the time of admission.	Never. This is a calculated field.
Admits In Previous Day Confirmed by Age	Numeric	The total number of patients who were newly admitted to an inpatient adult bed on the previous calendar day (12am - 11:59pm) who had confirmed COVID-19 at the time of admission. Numbers for this field should be entered in the appropriate age category: 0-17 18-19 20-29 30-39 40-49 50-59 60-69 70-79 80+ Unknown	Daily
Admits in Previous Day Suspected	Numeric	The total number of patients who were admitted to an inpatient bed on the previous calendar day (12am - 11:59pm) and who had suspected COVID-19 at the time of admission.	Never. This is a calculated field.
Adult Admits in Previous Day Suspected	Numeric	The total number of patients who were admitted to an inpatient bed on the previous calendar day (12am - 11:59pm) and who had suspected COVID-19 at the time of admission.	Never. This is a calculated field.
Admits In Previous Day Suspected by Age	Numeric	The total number of patients who were admitted to an inpatient adult bed on the previous calendar day (12am - 11:59pm) and who had suspected COVID-19 at the time of admission. Numbers for this field should be entered in the appropriate age category: 0-17 18-19 20-29 30-39 40-49 50-59 60-69 70-79 80+ Unknown	Daily

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
ED Visits In Previous Day	Numeric	The total number of patient visits to the ED on the previous calendar day (12am-11:59pm) regardless of reason for visit. Include all patients who were triaged even if they left before being seen by a provider.	Daily
ED Visits In Previous Day COVID Related	Numeric	The total number of ED visits who were seen on the previous calendar day (12am - 11:59pm) who had a visit related to COVID-19 (meets suspected or confirmed definition or presents for COVID diagnostic testing). Do not count those who presented for pre-procedure screening.	Daily
COVID Deaths In Previous Day	Numeric	Number of patients with suspected or laboratory confirmed COVID-19 who died on the previous calendar day in the hospital, ED, or any overflow location.	Daily

Ventilator Supplies & PPE - Data need to be reported once a week on Wednesdays

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Ventilator Supplies Days On Hand	Drop Down - <ul style="list-style-type: none"> • 0 days • 1-3 days • 4-6 days • 7-14 days • 15-30 days • >30 days 	The calculated days of supply in stock for ventilator supplies. Calculation may be provided by your hospital's ERP system or by utilizing the CDC's PPE burn rate calculator assumptions. For supply categories such as this that may have varying quantities, days on hand, or ability to obtain and maintain, reply for the item that has the lowest stock on hand.	Once a week on Wednesdays.
Ventilator Supplies Able to Obtain	Drop-Down - Yes/No	Select "Yes" if your facility is able to order and obtain ventilator supplies. Select "No" if your facility is not able to order and obtain ventilator supplies.	Once a week on Wednesdays.
Ventilator Supplies: Can Maintain 3-Day Supply?	Drop-Down - Yes/No/NA	Select "Yes" if you are able to maintain at least a 3 day supply for ventilator supplies. Select "No" if you are not able to maintain at least a 3 day supply for ventilator supplies.	Once a week on Wednesdays.
Ventilator Medications Able to Obtain	Drop-Down - Yes/No	Select "Yes" if your facility is able to order and obtain ventilator medications. Select "No" if your facility is not able to order and obtain ventilator medications. Ventilator medications include Propofol, Midazolam, Dexmedetomidine, Hydromorphone, Fentanyl, Cisatracurium, and Rocuronium.	Once a week on Wednesdays.
Ventilator Medications: Can Maintain 3-Day Supply?	Drop-Down - Yes/No/NA	Select "Yes" if you are able to maintain at least a 3 day supply for ventilator medications. Select "No" if you are not able to maintain at least a 3 day supply for ventilator medications. Ventilator medications include Propofol, Midazolam, Dexmedetomidine, Hydromorphone, Fentanyl, Cisatracurium, and Rocuronium.	Once a week on Wednesdays.

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Total N95 Masks	Numeric	The current number of N95 masks ready for use. This field is optional and should be provided only if feasible.	Once a week on Wednesdays (optional).
N95 Reusing/Extended Use	Drop-Down - Yes/No/NA	Enter YES if your facility re-uses or extends the use of this supply. Enter NO if your facility does not re-use or extend the use of this supply. Enter N/A if the item is not applicable for your facility.	Once a week on Wednesdays (optional).
N95 Days On Hand	Drop Down - <ul style="list-style-type: none"> • 0 days • 1-3 days • 4-6 days • 7-14 days • 15-30 days • >30 days 	The calculated days of supply in stock for N95 masks. Calculation may be provided by your hospital's ERP system or by utilizing the CDC's PPE burn rate calculator assumptions. For supply categories such as this that may have varying quantities, days on hand, or ability to obtain and maintain, reply for the item that has the lowest stock on hand.	Once a week on Wednesdays.
N95 Able to Obtain	Drop-Down - Yes/No	Select "Yes" if your facility is able to order and obtain N95 masks. Select "No" if your facility is not able to order and obtain N95 masks.	Once a week on Wednesdays.
N95: Can Maintain 3-Day Supply?	Drop-Down - Yes/No/NA	Select "Yes" if you are able to maintain at least a 3 day supply for N95 masks. Select "No" if you are not able to maintain at least a 3 day supply for N95 masks.	Once a week on Wednesdays.
Total Surgical and Procedure Masks	Numeric	The current number of surgical and procedure masks ready for use. This field is optional and should be provided only if feasible.	Once a week on Wednesdays (optional).
Surgical and Procedure Mask Days On Hand	Drop Down - <ul style="list-style-type: none"> • 0 days • 1-3 days • 4-6 days • 7-14 days • 15-30 days • >30 days 	The calculated days of supply in stock for surgical and procedure masks. Calculation may be provided by your hospital's ERP system or by utilizing the CDC's PPE burn rate calculator assumptions. For supply categories such as this that may have varying quantities, days on hand, or ability to obtain and maintain, reply for the item that has the lowest stock on hand.	Once a week on Wednesdays.
Surgical and Procedure Masks Able to Obtain	Drop-Down - Yes/No	Select "Yes" if your facility is able to order and obtain surgical and procedure masks. Select "No" if your facility is not able to order and obtain surgical and procedure masks.	Once a week on Wednesdays.
Surgical and Procedure Masks: Can Maintain 3-Day Supply?	Drop-Down - Yes/No/NA	Select "Yes" if you are able to maintain at least a 3 day supply for surgical and procedure masks. Select "No" if you are not able to maintain at least a 3 day supply for surgical and procedure masks.	Once a week on Wednesdays.

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Total Eye Protection	Numeric	The current number of eye protection pieces (including face shields and goggles) ready for use. For supply categories such as this that may have varying quantities, days on hand, or ability to obtain and maintain, reply for the item that has the lowest stock on hand. This field is optional and should be provided only if feasible.	Once a week on Wednesdays (optional).
Eye Protection Days On Hand	Drop Down - <ul style="list-style-type: none"> • 0 days • 1-3 days • 4-6 days • 7-14 days • 15-30 days • >30 days 	The calculated days of supply in stock for eye protection pieces (including face shields and goggles). Calculation may be provided by your hospital's ERP system or by utilizing the CDC's PPE burn rate calculator assumptions.	Once a week on Wednesdays.
Eye Protection Able to Obtain	Drop-Down - Yes/No	Select "Yes" if your facility is able to order and obtain eye protection. Select "No" if your facility is not able to order and obtain eye protection.	Once a week on Wednesdays.
Eye Protection: Can Maintain 3-Day Supply?	Drop-Down - Yes/No/NA	Select "Yes" if you are able to maintain at least a 3 day supply for eye protection pieces (including face shields and goggles). Select "No" if you are not able to maintain at least a 3 day supply for eye protection.	Once a week on Wednesdays.
Total Exam Gloves	Numeric	The current number of exam gloves ready for use. This field is optional and should be provided only if feasible.	Once a week on Wednesdays (optional).
Exam Gloves Days On Hand	Drop Down - <ul style="list-style-type: none"> • 0 days • 1-3 days • 4-6 days • 7-14 days • 15-30 days • >30 days 	The calculated days of supply in stock for exam gloves. Calculation may be provided by your hospital's ERP system or by utilizing the CDC's PPE burn rate calculator assumptions. For supply categories such as this that may have varying quantities, days on hand, or ability to obtain and maintain, reply for the item that has the lowest stock on hand.	Once a week on Wednesdays.
Exam Gloves Able to Obtain	Drop-Down - Yes/No	Select "Yes" if your facility is able to order and obtain exam gloves. Select "No" if your facility is not able to order and obtain exam gloves.	Once a week on Wednesdays.
Exam Gloves: Can Maintain 3-Day Supply?	Drop-Down - Yes/No/NA	Select "Yes" if you are able to maintain at least a 3 day supply for exam gloves. Select "No" if you are not able to maintain at least a 3 day supply for exam gloves.	Once a week on Wednesdays.
Total Single Use Gowns	Numeric	The current number of single use gowns ready for use. This field is optional and should be provided only if feasible.	Once a week on Wednesdays (optional).

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Single Use Gowns Days On Hand	Drop Down - • 0 days • 1-3 days • 4-6 days • 7-14 days • 15-30 days • >30 days	The calculated days of supply in stock for single use gowns. Calculation may be provided by your hospital's ERP system or by utilizing the CDC's PPE burn rate calculator assumptions. For supply categories such as this that may have varying quantities, days on hand, or ability to obtain and maintain, reply for the item that has the lowest stock on hand.	Once a week on Wednesdays.
Single Use Gowns Able to Obtain	Drop-Down - Yes/No	Select "Yes" if your facility is able to order and obtain single use gowns. Select "No" if your facility is not able to order and obtain single use gowns.	Once a week on Wednesdays.
Single Use Gowns: Can Maintain 3-Day Supply?	Drop-Down - Yes/No/NA	Select "Yes" if you are able to maintain at least a 3 day supply for single use gowns. Select "No" if you are not able to maintain at least a 3 day supply for single use gowns.	Once a week on Wednesdays.
Total PAPR	Numeric	The current number of PAPR ready for use. This field is optional and should be provided only if feasible.	Once a week on Wednesdays (optional).
PAPR Reusing/Extended Use	Drop-Down - Yes/No/NA	Enter YES if your facility re-uses or extends the use of this supply. Enter NO if your facility does not re-use or extend the use of this supply. Enter N/A if the item is not applicable for your facility.	Once a week on Wednesdays (optional).
PAPR Able to Obtain	Drop-Down - Yes/No	Select "Yes" if your facility is able to order and obtain PAPR. Select "No" if your facility is not able to order and obtain PAPR.	Once a week on Wednesdays.
PAPR: Can Maintain 3-Day Supply?	Drop-Down - Yes/No/NA	Select "Yes" if you are able to maintain at least a 3 day supply for PAPR. Select "No" if you are not able to maintain at least a 3 day supply for PAPR.	Once a week on Wednesdays.
PPE Source	Drop-Down - "Managed by health system" / "Managed by facility"	Select "Managed by health system" if your PPE is managed at the health system level or by a multiple-hospital group (e.g., PPE purchased at the health system level, par levels managed centrally, in stock supply available at another system location such as a central warehouse). Managing includes purchasing, allocation, and/or storage. Select "Managed by facility" if your PPE is managed at the Facility level (e.g., PPE purchased by your individual facility, par levels managed at the facility-level, in stock supply is all on-site) including purchasing, allocation, and/or storage.	Once a week on Wednesdays.
Total Launderable Gowns	Numeric	The current number of launderable gowns ready for use. This field is optional and should be provided only if feasible.	Once a week on Wednesdays (optional).

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Launderable Gowns Reusing/Extended Use	Drop-Down - Yes/No/NA	Enter YES if your facility re-uses or extends the use of this supply. Enter NO if your facility does not re-use or extend the use of this supply. Enter N/A if the item is not applicable for your facility.	Once a week on Wednesdays (optional).
Use Launderable Gowns?	Drop-Down - Yes/No	Select "Yes" if your facility use reusable/laundryable isolation gowns for the care of any patients on transmission-based precautions. Select "No" if your facility does not use reusable/laundryable isolation gowns for the care of any patients on transmission-based precautions.	Once a week on Wednesdays.
Can Maintain Supply Of Launderable Gowns?	Drop-Down - Yes/No	Select "Yes" if your facility is able to maintain a supply of reusable/laundryable gowns. Select "No" if your facility is not able to maintain a supply of reusable/laundryable gowns.	Once a week on Wednesdays.
Critical Medical Supply Shortage Next 3 Days?	Text	Type any specific or critical medical supplies or medication shortages that you are currently experiencing or anticipate experiencing in the next three days.	Once a week on Wednesdays.
Nasal Pharyngeal Swabs: Can Maintain 3-Day Supply?	Drop-Down - Yes/No/NA	Select "Yes" if you are able to maintain at least a 3 day supply. Select "No" if you are not able to maintain at least a 3 day supply.	Once a week on Wednesdays.
Nasal Swabs: Can Maintain 3-Day Supply?	Drop-Down - Yes/No/NA	Select "Yes" if you are able to maintain at least a 3 day supply. Select "No" if you are not able to maintain at least a 3 day supply.	Once a week on Wednesdays.
Reagent: Can Maintain 3-Day Supply?	Drop-Down - Yes/No/NA	Select "Yes" if you are able to maintain at least a 3 day supply. Select "No" if you are not able to maintain at least a 3 day supply.	Once a week on Wednesdays.
Viral Transport Media: Can Maintain 3-Day Supply?	Drop-Down - Yes/No/NA	Select "Yes" if you are able to maintain at least a 3 day supply. Select "No" if you are not able to maintain at least a 3 day supply.	Once a week on Wednesdays.

Remdesivir - These fields are optional

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Remdesivir Current Inventory	Numeric	Enter the number of remdesivir vials in inventory at 11:59 p.m. on the previous calendar day in the hospital pharmacy.	Daily (optional)
Remdesivir Used Previous Day	Numeric	Enter the number of remdesivir vials used on the previous calendar day (12am - 11:59pm) in an inpatient, ED, and/or overflow location.	Daily (optional)

Influenza - These fields are optional starting June 10th 2021. HHS/CMS is allowing this change to be implemented early without any penalties.

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Total Hospitalized Influenza	Numeric	The number of patients of any age currently hospitalized in an inpatient bed who have laboratory-confirmed influenza. Include those in observation beds.	Daily (optional)
Admits in Previous Day Influenza	Numeric	The number of patients of any age who were admitted to an inpatient bed on the previous calendar day who had laboratory-confirmed influenza at the time of admission. Include those in observation beds.	Daily (optional)
Total ICU Influenza	Numeric	The number of patients of any age currently hospitalized in the ICU (of any type) with laboratory-confirmed influenza. Include those in observation beds.	Daily (optional)
Total Hospitalized Influenza AND COVID	Numeric	The number of patients of any age currently hospitalized in an inpatient bed who have laboratory-confirmed COVID-19 and laboratory-confirmed influenza. Include those in observation beds.	Daily (optional)
Previous Day's Influenza Deaths	Numeric	The number of patients with laboratory-confirmed influenza who died on the previous calendar day in the hospital, ED, or any overflow location.	Daily (optional)
Previous Day's Influenza AND COVID Deaths	Numeric	The number of patients with laboratory-confirmed influenza AND laboratory-confirmed COVID-19 who died on the previous calendar day in the hospital, ED, or any overflow location.	Daily (optional)

Therapeutics - Data need to be reported once a week **on Wednesdays**

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Casirivimab / Indevimab Current Inventory	Numeric	Enter the number of therapeutic courses of Casirivimab / Indevimab currently in inventory.	Once a week on Wednesdays.
Casirivimab / Indevimab Used in Last Week	Numeric	Enter the number of Casirivimab / Indevimab therapeutic courses used in the previous calendar week in an inpatient, ED, overflow, or outpatient location, such as an urgent care, infusion center, or outpatient clinic.	Once a week on Wednesdays.
Bamlanivimab Current Inventory	Numeric	Enter the number of single therapeutic courses of Bamlanivimab currently in inventory. Do not count Bamlanivimab courses that are part of the combination Bamlanivimab / Etesevimab therapy.	Once a week on Wednesdays. (optional)
Bamlanivimab Used in Last Week	Numeric	Enter the number of Bamlanivimab therapeutic courses used in the previous calendar week in an inpatient, ED, overflow, or outpatient location, such as an urgent care, infusion center, or outpatient clinic. Do not count courses that are part of the combination Bamlanivimab / Etesevimab therapy.	Once a week on Wednesdays. (optional)
Bamlanivimab / Etesevimab Current Inventory	Numeric	Enter the number of therapeutic courses of Bamlanivimab / Etesevimab courses currently in inventory.	Once a week on Wednesdays.
Bamlanivimab / Etesevimab Used in Last Week	Numeric	Enter the number of Bamlanivimab / Etesevimab therapeutic courses used in the previous calendar week in an inpatient, ED, overflow, or outpatient location, such as an urgent care, infusion center, or outpatient clinic.	Once a week on Wednesdays.

Vaccine Administration - Data may be optionally reported once a week **on Wednesdays**

For these fields, "Healthcare personnel" include all paid and unpaid persons serving in healthcare settings who have the potential for direct or indirect exposure to patients or infectious materials.

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Previous Week's COVID Vaccine Doses	Numeric	Enter the number of COVID-19 vaccination doses administered in the previous week (regardless of whether it is a first, second, or final dose in a series or single-dose vaccine) to any healthcare personnel (serving your facility or elsewhere). For the first week of reporting, include all does given up to that date.	Once a week on Wednesdays (optional).
Unvaccinated Personnel	Numeric	Enter the number of healthcare personnel who have not yet received any vaccine dose.	Once a week on Wednesdays (optional).
Personnel Receiving a Partial Series	Numeric	Enter the current total number of healthcare personnel who have received at least one dose of COVID-19 vaccination that is administered in a multi-dose series. This field is meant to represent those who have begun but not completed the vaccination process. Do not include those who received a single-dose vaccine in this field.	Once a week on Wednesdays (optional).

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Personnel Receiving a Complete Series	Numeric	Enter the current total number of healthcare personnel who have received a complete series of a COVID-19 vaccination. Include those who have received all doses in a multi-dose series as well as those who received a single-dose vaccine.	Once a week on Wednesdays (optional).
Total Personnel	Numeric	Enter the current total number of healthcare personnel for the facility.	Once a week on Wednesdays (optional).
Previous Week's First COVID Vaccine Doses	Numeric	Enter the number of patients in the previous week who received the first dose of a COVID-19 vaccine that is administered in a multi-dose series. Do not include those who received the second or final dose in a series or single-dose vaccines. For the first week of reporting, include all doses given up to that date.	Once a week on Wednesdays (optional).
Previous Week's Final COVID Vaccine Doses	Numeric	Enter the number of patients in the previous week who received the final dose in a COVID-19 vaccination multi-dose series or received a single dose vaccine.	Once a week on Wednesdays (optional).

Staff

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Staffing Shortage Today	Drop-Down - Yes/No	Select "Yes" if you have a staffing shortage today. Select "No" if you do not have a staffing shortage today.	Daily (optional)
Staffing Shortage Anticipated this Week	Drop-Down - Yes/No	Select "Yes" if you anticipate a staffing shortage within a week. Select "No" if you do not anticipate a staffing shortage within a week. This field is optional as of November 4.	Daily (optional)
Staffing Shortage Anticipated: Environmental Services	Drop-Down - Yes/No	Select "Yes" if you have a staffing shortage for Environmental Services today or anticipate a shortage within a week. Select "No" if you do not have a staffing shortage for Environmental Services today or do not anticipate a shortage within a week.	Daily (optional)
Staffing Shortage Anticipated: Nurses	Drop-Down - Yes/No	Select "Yes" if you have a staffing shortage for nurses today or anticipate a shortage within a week. Select "No" if you do not have a staffing shortage for nurses today or do not anticipate a shortage within a week.	Daily (optional)
Staffing Shortage Anticipated: Respiratory Therapy	Drop-Down - Yes/No	Select "Yes" if you have a staffing shortage for respiratory therapists today or anticipate a shortage within a week. Select "No" if you do not have a staffing shortage for respiratory therapists today or do not anticipate a shortage within a week.	Daily (optional)

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Staffing Shortage Anticipated: Pharmacy	Drop-Down - Yes/No	Select "Yes" if you have a staffing shortage for pharmacists and pharmacy techs today or anticipate a shortage within a week. Select "No" if you do not have a staffing shortage for pharmacists and pharmacy techs today or do not anticipate a shortage within a week.	Daily (optional)
Staffing Shortage Anticipated: Other Physicians	Drop-Down - Yes/No	Select "Yes" if you have a staffing shortage for physicians today or anticipate a shortage within a week. Select "No" if you do not have a staffing shortage for physicians today or anticipate a shortage within a week.	Daily (optional)
Staffing Shortage Anticipated: Other Independent Practitioners	Drop-Down - Yes/No	Select "Yes" if you have a staffing shortage for other licensed independent practitioners today or anticipate a shortage within a week. Select "No" if you do not have a staffing shortage for other licensed independent practitioners today or do not anticipate a shortage within a week.	Daily (optional)

Select "No" if you do not have a staffing shortage for temporary physicians, nurses, respiratory therapists, and pharmacists today or do not anticipate a shortage within a week.	Daily (optional)
Staffing Shortage Anticipated: Other Critical Personnel	Drop-Down - Yes/No	Select "Yes" if you have a staffing shortage for other critical healthcare personnel today or anticipate a shortage within a week. Select "No" if you do not have a staffing shortage for other critical healthcare personnel today or do not anticipate a shortage within a week.	Daily (optional)
Supply or Medication Shortages	Text	Using free text, indicate any specific or critical medical supplies or medication shortages you are currently experiencing or anticipate experiencing in the next three days.	Daily (optional)
Total COVID Staff	Numeric	The total number of staff and facility personnel since 1/1/2020 who have tested positive for COVID-19 (laboratory confirmed or clinically diagnosed). Staff and facility personnel include anyone working or volunteering in the facility, which includes, but is not limited to, contractors, temporary staff, resident care givers, shared staff, etc.	Once a week on Wednesdays.

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
This Week's COVID Staff	Numeric	<p>The number of staff and facility personnel routinely scheduled to work at the hospital but not necessarily present in the facility in the last week (from last Wednesday to this Tuesday) who have a laboratory positive COVID-19 test result. Staff and facility personnel include anyone working or volunteering in the facility, which includes, but is not limited to contractors, temporary staff, resident care givers, shared staff, etc. Do not count staff who have had a confirmed positive COVID test result, recovered, and have met the criteria to return to work.</p>	Once a week on Wednesdays.
Newly Confirmed Staff	Numeric	<p>The number of staff and facility personnel routinely scheduled to work at the hospital but not necessarily present in the facility in the last week (from last Wednesday to this Tuesday) identified as having a laboratory positive COVID-19 test . Staff and facility personnel include anyone working or volunteering in the facility, which includes, but is not limited to contractors, temporary staff, resident care givers, shared staff, etc.</p>	Once a week on Wednesdays.
Newly Suspected Staff	Numeric	<p>The number of staff and facility personnel routinely scheduled to work at the hospital but not necessarily present in the facility in the last week (from last Wednesday to this Tuesday) who are being managed as though they have COVID-19 (but do not have a laboratory positive COVID-19 test result). Suspected is defined as staff and facility personnel being managed or treated with the same precautions as those with a laboratory positive COVID-19 test result but have not been tested or have pending test results. Staff and facility personnel with a laboratory negative COVID-19 test result, but whom continue to be managed or treated with the same precautions as laboratory positive COVID-19 staff and facility personnel because of exposure and/or suggestive signs and symptoms should be included in this count. Staff and facility personnel include anyone working or volunteering in the facility, which includes, but is not limited to contractors, temporary staff, resident care givers, shared staff, etc.</p>	Once a week on Wednesdays.

VARIABLE	FORMAT	DESCRIPTION	HOSPITAL UPDATE FREQUENCY
Staff New COVID Deaths	Numeric	<p>The number of deaths for staff and facility personnel routinely scheduled to work at the hospital with suspected or laboratory positive COVID-19 that occurred in the last week (from last Wednesday to this Tuesday).</p> <p>Suspected is defined as staff and facility personnel being managed or treated with the same precautions as those with a laboratory positive COVID-19 test result but have not been tested or have pending test results. Staff and facility personnel with a laboratory negative COVID-19 test result, but whom continued to be managed or treated with the same precautions as laboratory positive COVID-19 staff and facility personnel because of exposure and/or suggestive signs and symptoms should be included in this count.</p> <p>Staff and facility personnel include anyone working or volunteering in the facility, which includes, but is not limited to contractors, temporary staff, resident care givers, shared staff, etc.</p>	Once a week on Wednesdays.
Primary Contact Name	Text	Name of person providing information on SmartSheet.	Infrequently. Change when new primary contact is assigned.
Primary Contact Title	Text	Title of primary contact.	Infrequently. Change when new primary contact is assigned.
Primary Contact e-mail	Text	Email of primary contact.	Infrequently. Change when new primary contact is assigned.
Primary Contact Phone	Text	Phone number of primary contact.	Infrequently. Change when new primary contact is assigned.
Notes	Text	Notes provided by primary contact.	Optional Field. Daily if needed.
Opt In for CDPH Reporting	Text	"Yes" indicates that CDPH will upload data from the CHA COVID Tracker on the hospital's behalf into the federal portal on a daily schedule. "No" indicates the hospital has contacted CHA to express that it wishes to enter data into the federal portal itself. Hospitals that would like to change their status should contact CHA at covidtracker@calhospital.org .	Infrequently.
