FEDERAL

Federal Update (O'Rourke)

Congress is in recess until April 29. CHA urges members to support the [Advocacy Alert](#) sent April 17, calling for signatures on a bipartisan letter opposing Medicaid disproportionate share hospital cuts.

For additional information, contact Anne O'Rourke at (202) 488-4494 or aorourke@calhospital.org.

STATE

Legislative Update (Scott)

The Legislature was on spring recess this week and will return on April 22. The activity level in policy committees will be high when legislators return, as hearings are scheduled on several hundred bills that must be acted upon by the April 26 deadline.

Key legislation set for hearing:

- CHA-opposed, unless amended **AB 1611** (Chiu, D-San Francisco) would prohibit hospitals — as a condition of their state licensure — from balance billing all patients, including those with federally regulated coverage. The bill would establish a default rate for non-contracted emergency and post-stabilization services as the greater of 150 percent of the Medicare rate or the average contracted rate paid by the specific health insurer for the same or similar services in the same geographic area. AB 1611 will be heard in the Assembly Health Committee April 23.
- CHA-opposed **SB 567** (Caballero, D-Salinas and Skinner, D-Berkeley) would define “injury” — for the purposes of workers’ compensation — for a hospital employee who provides direct patient

care in an acute care hospital to include infectious disease, cancer, musculoskeletal injuries, post-traumatic stress disorder, and respiratory diseases. SB 567 will be heard in the Senate Labor, Public Employment and Retirement Committee April 24.

- CHA-sponsored **SB 382** (Nielsen, R-Red Bluff and Stern, D-Canoga Park) would clarify health plan responsibilities during times of disaster by asking the plan to help coordinate patient placement, and to reimburse the hospital an extremely modest amount for caring for the patient until that placement happens. SB 382 will be heard in the Senate Health Committee April 24.
- CHA-supported **SB 714** (Umberg, D-Orange) clarifies the process to receive an exemption from the Department of Managed Health Care's Knox-Keene licensure regulation and would presumptively exempt particularly low-risk payment arrangements that fall below quantitative risk thresholds. SB 714 will be heard in the Senate Health Committee April 24.
- CHA-sponsored **SB 758** (Portantino, D-La Cañada Flintridge) would require hospitals to submit a report to the Office of Statewide Health Planning and Development (OSHPD) describing the services provided in each building of the acute care inpatient hospital, in order to help OSHPD implement existing seismic safety regulations and standards. SB 758 will be heard in the Senate Health Committee April 24.

Other key legislation:

- CHA-supported **AB 890** (Wood, D-Santa Rosa) would authorize a nurse practitioner who meets specified requirements to practice without the supervision of a physician in specified environments. AB 890 passed the Assembly Business and Professions Committee April 9 and will now be heard in the Assembly Appropriations Committee.
- CHA-opposed **AB 1572** (Chen, R-Yorba Linda) would change the definition of "grave disability," expanding the criteria for involuntary commitment (also referred to as a "5150 hold"). AB 1572 is now a two-year bill.
- CHA-opposed **SB 227** (Leyva, D-Chino) would require the California Department of Public Health to impose administrative penalties for violations of nurse-to-patient staffing ratios and would eliminate the department's ability to link the penalty amount to the actual risk of harm to patients. SB 227 passed the Senate Health Committee on April 10 and will now be heard in the Senate Appropriations Committee.
- **SB 464** (Mitchell, D-Los Angeles) would require hospitals that provide perinatal care — as well as alternative birthing centers and specified primary clinics — to implement an implicit bias training program for all health care providers involved in perinatal care. SB 464 passed the Senate Health Committee April 10 and will now be heard in the Senate Appropriations Committee.

Information on additional priority health care-related bills is available at www.calhospital.org/legislative-update.
