RE: AB 2190 Attestation Reminder
«FacilityName» - «FacilityNbr»
«FacilityAddress», «FacilityCity», «FacilityState» «FacilityZip»

Dear «Salutation» «LastName»:

This letter is to advise you that Assembly Bill 2190 (2018) requires the governing board for each hospital facility that is not in full compliance with the Hospital Facilities Seismic Safety Act to submit an attestation of their awareness of the January 1, 2030 deadline in a form of their choice to the Office of Statewide Planning and Development.

Health & Safety Code Section 130066: Before January 1 2020, the owner of an acute care inpatient hospital whose building does not substantially comply with the seismic safety regulations or standards described in Section 130065 shall submit to the office an attestation that the board of directors of that hospital is aware that the hospital building is required to meet the January 1, 2030, deadline for substantial compliance with those regulations and standards.

You are receiving this reminder because one or more of the buildings at your facility has performance ratings less than SPC-3 or NPC-5 as required by January 1, 2030.

Attestations may be mailed to the address above or emailed to SeismicComplianceUnit@oshpd.ca.gov not later than January 1, 2020. Please specify the facility name and number for each facility for which attestation is made.

If you need further information regarding AB 2190, you may visit our web site at <http://www.oshpd.ca.gov>.

Sincerely

Carl Scheuerman
Compliance Officer
Seismic Compliance Unit
Facility Development Division
