**SCAN Health Plan Allocates More Than $5 Million to Support
Coronavirus Relief for Seniors**

*Funds Designated to Mitigate Extraordinary Impacts Will Include Support for Critical Community
Services; Plan Also Waives Copays for Members' Primary and Urgent Care Visits*

LONG BEACH, Calif., April 15, 2020—SCAN Health Plan®, a not-for-profit provider of
Medicare Advantage health plans to seniors in California, today announced it is committing $5.1
million to address a variety of needs for vulnerable seniors and others at risk due to the effects
of the COVID-19 pandemic. With deep seated, community-based roots, SCAN's financial
commitment to help stakeholders during the current crisis aligns with the organization's long-
held mission of keeping seniors healthy and independent.

"Recognizing SCAN is in a position to offer emergency funding, we immediately knew it was our
duty to support those facing uncertainty and disruption to their lives," stated Chris Wing, CEO of
SCAN Health Plan. "With 40-plus years working alongside community organizations, we know
how to most effectively direct these funds. We are pleased to be able to provide this additional
direct support for seniors, while also assisting those we rely on to serve them."

The emergency funding will address:

- **Delivery of additional services** to seniors in need of nutritious meals and other
  essential supplies
- **Additional financial support** to non-profit, senior-focused organizations and provider
  groups in addition to the nearly $350,000 in COVID-19-related funding SCAN has
  already provided to such groups
- **Assistance for SCAN employees** most impacted by current circumstances

To help ensure that cost is not a barrier for SCAN Health Plan members seeking care, the plan
has waived copays for urgent and primary care visits related to COVID-19, including those
offered via telehealth. "Many SCAN plans already include $0 copays for urgent, primary care
and telehealth visits. We are temporarily extending that benefit to all plans so no SCAN member
incurs a cost for these services," Wing noted.

"While no one is untouched by the implications of coronavirus, older adults are not only highly
susceptible to the virus, but also may face unique barriers to physical and mental wellbeing
while sheltering in place," added Wing. "With social isolation, food insecurity and limited access
to transportation among the social determinants of health most likely to impact seniors, our aim
with this funding is to help ease these and related challenges caused by this pandemic."

About SCAN Health Plan
SCAN Health Plan is one of the nation's largest not-for-profit Medicare Advantage plans,
serving more than 215,000 members in California. Since its founding in 1977, SCAN has been a

mission-driven organization dedicated to keeping seniors healthy and independent. Independence at Home, a SCAN community service, provides vitally needed services and support to seniors and their caregivers. SCAN also offers education programs, community funding, volunteer opportunities and other community services throughout our California service area.
