Outpatient Services

Thomas Fire Evacuation

At 11:30 pm, the decision to evacuate the hospital was made. Roll call for staff and patients was held, emergency medication and medical records were gathered.

A convoy of 100 people quickly and safely drove away from the hospital.

A distance away and a short while later, one could see the hospital's palm trees beginning to burst into flames.

The evacuation was a success.

No patients or staff were injured.

Thomas Fire Aftermath

Vista's Recovery

December 5, **2017**

December 5, **2018**

Project Goals

Rebuild the lost
Building B and Building D
program components

Expand bed count

Provide additional parking

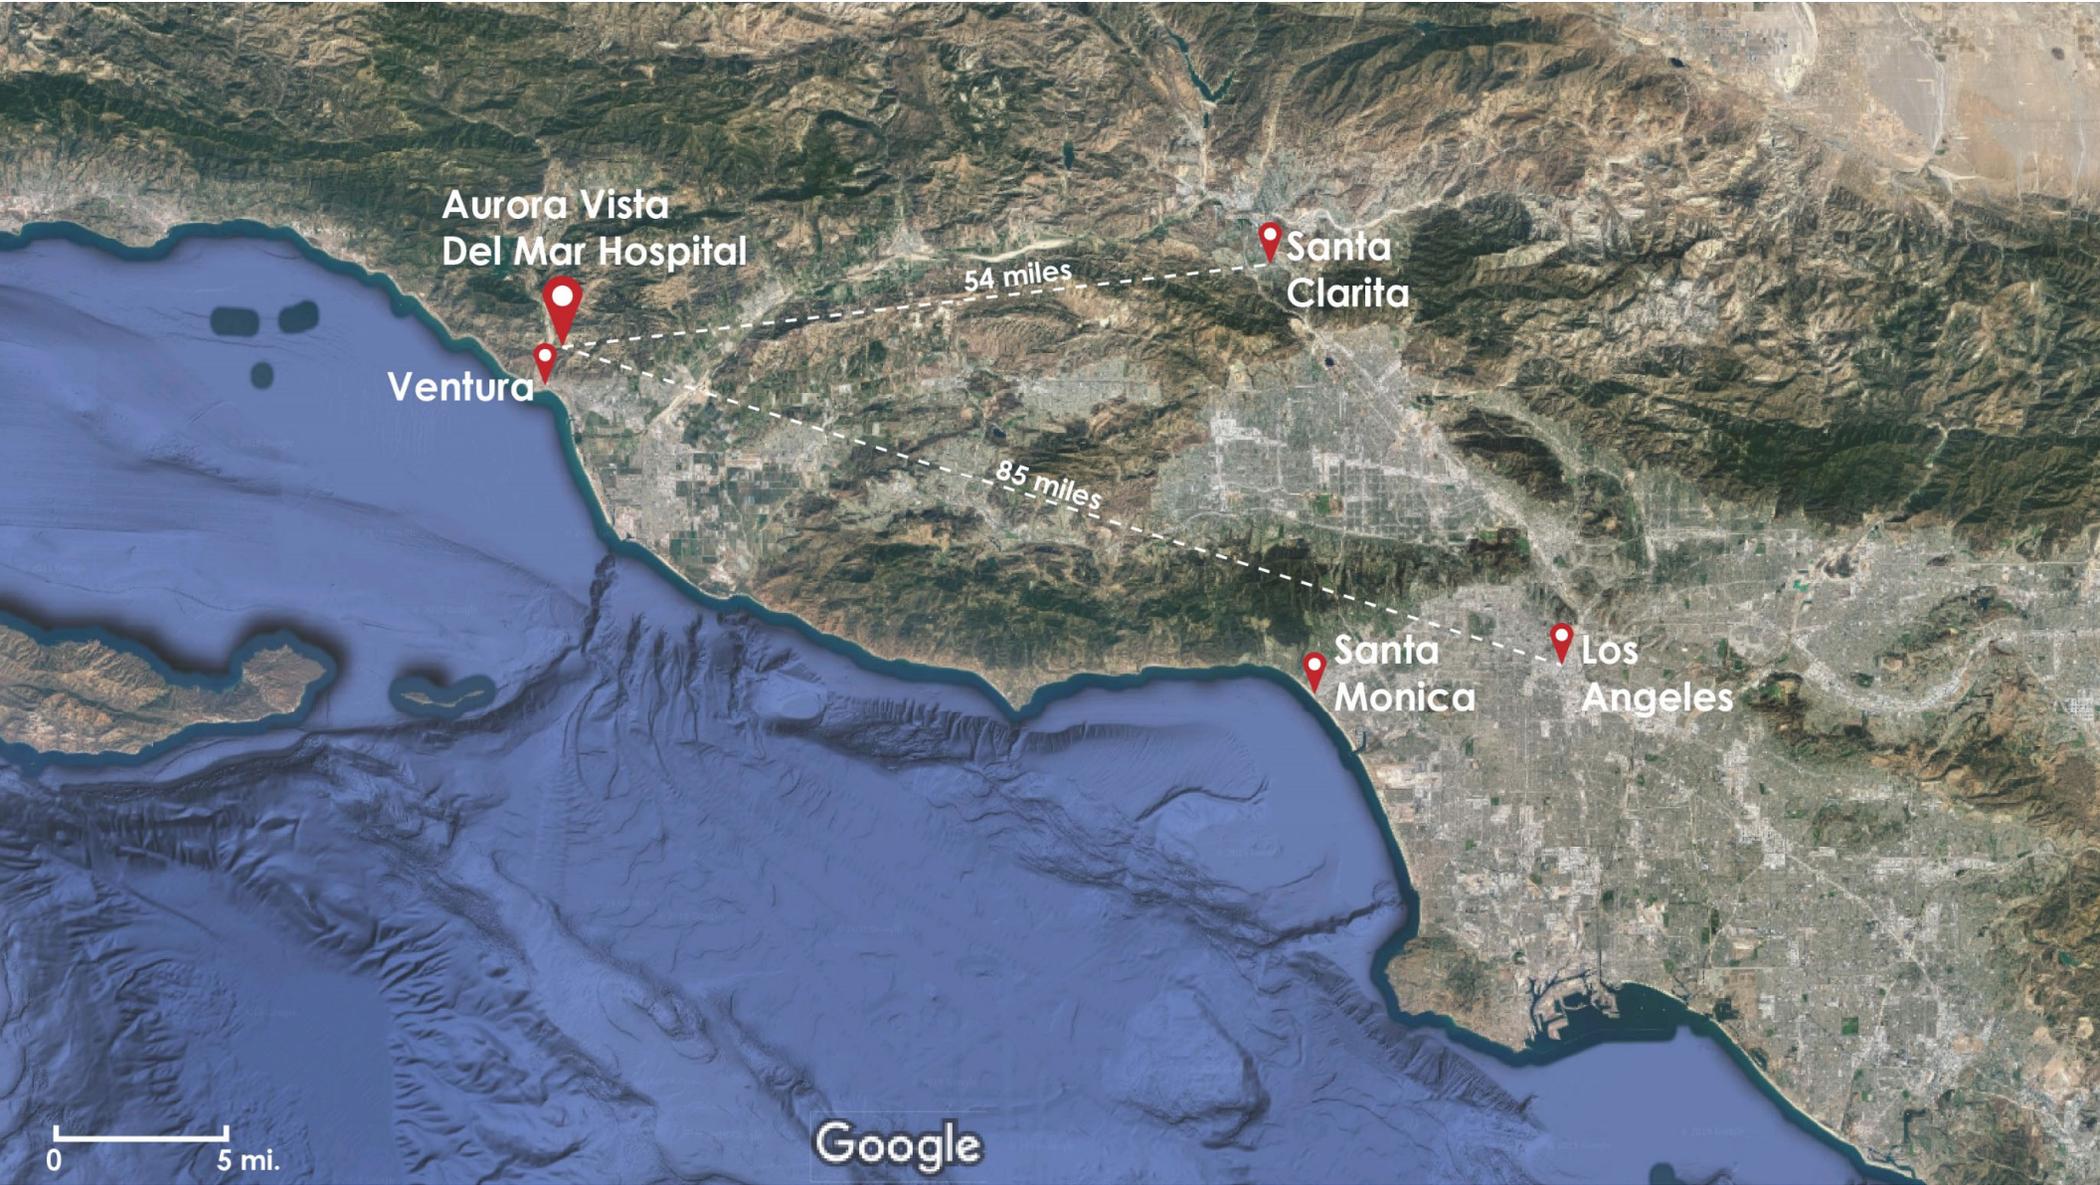

Expand kitchen capacity

Provide safe access to
outdoor recreation space for
patients

Design a state-of-the-art
facility that meets today's
guidelines
