

XFERALL
PATIENT TRANSFERS. FOR ALL.™

Every minute counts. Every patient matters.

Transfer faster, easier and smarter with XFERALL.

Overview & Demonstration Request | Sales@xferall.com

1

The reality.
Patients with behavioral needs...

Wait 3X

as long for clinically appropriate care in hospital emergency departments than patients with other care needs.

Overview & Demonstration Request | Sales@xferall.com

2

The reality.
Patients with behavioral needs...

Spend 19.9 Million Hours

in hospital emergency departments for a
transfer to clinically appropriate care.

3

Xferall is a revenue driver, data gold mine and competitive edge all in one.

It automates the process of transferring acute and behavioral patients while capturing rich data to optimize your intake growth strategy.

FASTER

Save lives, build relationships and generate revenue.

EASIER

Puts inefficient phone calls and faxes between hospitals to bed.

SMARTER

Unlock rich data and KPI tracking to drive growth.

Overview & Demonstration Request | Sales@xferall.com

4

XFERALL customers improve
intake acceptance by an
average of

85 %

7

"I can look at the XFERALL dashboard and see that one facility responded in eight seconds and the other hospital in two seconds. It's literally that quick, which has helped us save tons of time and money in staff overtime and efficiencies."

Brittany Waymack, Denton MHMR Administrator, Mobile Crisis Team

8

Visibility that drives strategy

"Xferall is a valuable tool enabling us to monitor our timeliness of accepting patients and other processes. It provides us visibility on transfers within the region, allowing us to develop targeted strategies to capture missed referrals."

Doug Coffey CEO at Northwest Texas Health System Behavioral Health
