Dear Colleague,

We are writing to ask for your support in addressing the pending cuts to Medicaid Disproportionate Share Hospital (DSH) payments, which are scheduled to take effect on January 1, 2025.

These cuts will deal a heavy blow to hospitals that serve the most vulnerable —particularly low-income and uninsured patients in both rural and urban areas. These hospitals rely on Medicaid DSH payments to remain operational and manage significant uncompensated care costs, ensuring they can continue to deliver critical services to the people we represent. Since 2013, Congress has stepped in time and again to delay these damaging cuts. But come January, Medicaid DSH hospitals are facing an \$8 billion annual reduction.

I urge you to join me in signing onto a letter to Speaker Johnson and Democratic Leader Jeffries, urging them to once again prevent these cuts.
